Library Holdings

The University Library is composed of the Central Library, the Medical Library, and departmental libraries. As of April 1, 2010, the library collection holds 3,072,003 volumes in total, including 1,478,041 foreign books, as well as a large amount of electronic resources and software. In order to support students’ learning experiences, the library established a space called “learning commons” where students can learn in groups through discussion and receive personal guidance for using electronic resources and software.

The City of Nagoya

Nagoya City ranks among the top 10 economies worldwide, boasting leading industries in automotive manufacturing, machinery, electronics and ceramics.

The Chubu area of Japan is particularly renowned as the home of Oda Nobunaga, Toyotomi Hideyoshi and Tokugawa Ieyasu, three leaders who unified Japan over 400 years ago, bringing an end to the “Period of Warring States.”

Nagoya Castle, originally built by Tokugawa Ieyasu and famous for the golden dolphins found on its donjon, serves as the landmark of the region.
