

Job Opportunity for Researcher at the Institute of Materials and Systems for Sustainability

A researcher position is available for the development of the new class of phosphorus containing AlN for UV-light and electronic application. Knowledge about semiconductor growth or characterization is highly desirable. You will join the International Research Section of the Center for Integrated Research of Future Electronics (CIRFE) at the Institute of Materials and Systems for Sustainability (IMaSS) in Nagoya University http://www.imass.nagoya-u.ac.jp/en/organization/str_cirfe.html

Qualification:

- Holder of doctorate (PhD) degree

Employment Conditions:

- Annual Salary System (to be decided based upon education/employment history, pursuant to the Nagoya University Pay Rules for Employees covered under the Annual Salary System)
- Term
Start at earliest convenience
Renewable up to March 31st, 2020 (annually renewed on March 31st)
Maximum age of employment is on March 31st after reaching 65 years of age
- Insurance
Health insurance, welfare pension, employment insurance, and compensation insurance provided by The Ministry of Education, Culture, Sports, Science and Technology Mutual Aid Association

Application:

- Curriculum vitae with photo including list of publications (books, journals, presentations, patents, etc.) and three or less references
- Your research so far and your research plan at the center
- Deadline is August 25th, 2017. The recruitment will be closed, whenever the slot is filled.
- All material can be sent as PDF files to the address below. Personal information will be handled confidentially and will be destroyed after the selection.

Submission of application documents/inquiries

Ms. Masayo Kondo
