

Job Opportunity Announcement: Professor or Associate Professor, Institute for Space-Earth Environmental Research (ISEE), Nagoya University, Japan

ISEE invites applications from female researchers for one professor or associate professor position during the Japanese fiscal years, April 2020–March 2025, as follows:

1. Job Description:

ISEE has seven research divisions: 1) integrated studies, 2) cosmic ray research, 3) heliospheric research, 4) ionospheric and magnetospheric research, 5) meteorological and atmospheric research, 6) land–ocean ecosystem research, and 7) chronological research. It has four interdisciplinary research projects: a) solar–terrestrial climate research, b) space–Earth environmental prediction, c) interaction of neutral and plasma atmospheres, and d) aerosol and cloud formation. The successful candidate is expected to conduct researches related to at least one of these seven divisions, and is welcomed to join these interdisciplinary research projects. The candidate also belongs to the Center for International Collaborative Research (CICR) of ISEE which promotes various international collaborative researches to understand physical mechanisms occurring in space, sun, and earth systems. In the CICR, the candidate is expected to take a lead to develop ISEE as an international joint research center (i) by hosting international collaborative researches, (ii) by hosting international meetings, (iii) by promoting the exchange of researchers between ISEE and foreign institutions, and (iv) by organizing capacity-building schools for students and young scientists. The candidate is also expected to teach classes for graduate and/or undergraduate courses in English, and to supervise some graduate and/or undergraduate students in the relevant research division. Applications from any country are welcomed.

2. Job details:

- (1) Employer: Nagoya University (The position is at the Institute for Space-Earth Environmental Research (ISEE), Nagoya University, <http://www.isee.nagoya-u.ac.jp/en/index.html>)
