

## To All Nagoya University Students Regarding Overseas Travel

Due to the spread of the novel coronavirus, Nagoya University is implementing the following regulations to protect students and other members of the community. We ask for your understanding and cooperation.

### ● Please cancel or postpone any overseas travel

Should overseas travel be absolutely necessary, make sure to:

① Input your data into the overseas travel database

<https://tokou.iee.nagoya-u.ac.jp/> (available only in Japanese)

② Notify your school/department by printing and submitting the overseas travel notification form from the travel database

③ Japanese citizens only - Register in "tabireji"

<https://www.ezairyu.mofa.go.jp/tabireg/index.html> (available only in Japanese).

If you travel through a Nagoya University study abroad program, please contact your supervisor.

### ● Should you be infected with the novel coronavirus and be unable to return to Japan, contact your school/department and the Student Exchange Division immediately ([corona@adm.nagoya-u.ac.jp](mailto:corona@adm.nagoya-u.ac.jp)).

### ● Students entering Japan from a country with a Travel Advisory and Warning must quarantine themselves at home for two weeks.

"Countries with a Travel Advisory and Warning" are those the Ministry of Foreign Affairs identifies in the Level 2 (avoid non-essential travel) or higher category at risk of infectious disease.

<https://www.anzen.mofa.go.jp/masters/tawinfectiousdiseases.html>

Level 1 (exercise caution), Level 2 (avoid non-essential travel),

Level 3 (avoid all travel), Level 4 (evacuate and avoid all travel)

Students should follow all policies implemented by the Japanese Government. As of March 6, anyone entering Japan from China or South Korea must enter a designated quarantine facility for two weeks and refrain from using public transportation.

### ● If there is an urgent procedure that must be completed while you are quarantined or at home, please contact your school/department by phone or email.

Nagoya University and its schools will consider the situation and respond as flexibly as possible.
