

October 19, 2021
(Revised November 30, 2021)

To All Deans and Directors of Schools/Graduate Schools

Novel Coronavirus Infectious Disease Risk Management Task Force
Seiichi Matsuo, Director

On Dining in Groups

On October 19, 2021, we released the notification “On Dining in Groups” detailing several precautions to take based on Aichi Prefecture's response to the COVID-19 pandemic. However, as of November 22, Aichi Prefecture’s infection prevention measures in “Areas Under Alert” have been partially reviewed, and we have accordingly revised our request as follows. Please share this information with all students, faculty and staff members of your school/graduate school. Please also note that our response is subject to change depending on the future state of infections.

Details

1. Precautions to take when dining with other people:

Please follow “Aichi Prefecture's Infection Prevention Measures in ‘Areas Under Alert,’” and keep the following points in mind.

- Take steps to stay safe: Do not become infected and do not infect others.
- Please don't shout or speak loudly, as it can cause droplet infection.
- Make sure to continue to adhere to basic infection prevention measures such as “masked group dining.”
- Please avoid eating, having extended meetings, etc. in places that do not have sufficient infection prevention measures in place.

* For more details, please see the Aichi Prefecture Novel Coronavirus Infectious Disease Control site.
